

## Cape Town meeting - wwTLD community

**Venue: CTICC: Rooms 1.61, 1.62      Date: November 30, 2004**

<b>Time</b>	<b>Agenda Topic</b>	<b>Session leader</b>
09:00 – 09:15	Welcome...	Alan Levin .za DNA
9:15 – 11:15	Report back from regional groups: CENTR – Giovanni Seppia, LACTLD - Patricio Poblete AFTLD - Yann Kwok APTLTLD - Peter Dengate Thrush NATLD - Oscar Robles	Sabine
11:15 – 11:30	Morning Tea	
11:30 – 12: 30	Services available to ccTLD registries (at no charge). Secondary DNS name Servers Who does it (for whom)? Who needs it? (workshop)	Giovanni Seppia, Hilde Thunem
12:30 – 13:30	Lunch	
13:30 – 14:00	The zone walk issue and possible solutions	Andreas Baess / Denic
14:00 – 15:00	DNSSEC activities and the plan for deployment, costs of DNSSEC deployment, both in the zone admin end but also in the "resolver end", a look at the pros and cons and ways to define success vs failure	Sam Weiler, Johan Ihren
15:00 – 15:30	DNSSEC and IPv6 for Africa	Bill Manning
15:30	Afternoon Tea	
15:45 – 16:45	Open forum: 1. Available help for interacting with Governments, Civil Society and Industry? 2. Whois: What are the data protection issues in different regions? What are the central questions each registry needs to answer to decide what they put in the whois? Which conditions do they put on the whois use? 3. Registries approach to registrars, agents or whatever they call them. Do they have them? Do they have formal contracts with them? What are the requirements for being an agent/registrar? What are their experiences with the model they use? 4. Phases a registry goes through. What are the challenges a small registry needs to meet? (Could we get a small registry to speak on this?) What about a medium or large registry?	Mike Silber  (not more than 5 minutes per contribution)
16:45	Next meeting agenda and close	Oscar Robles
